

# Devil's on Fire

## Headstones

Out here on the ocean  
Adrift upon the sea  
I'm staring at the stars now  
Ah what's become of me

Can't even move a muscle  
I can't even think  
The waters all around me  
And I just wanna drink

The Summers never cease here  
And all the Mothers cry  
When the darkness is afire  
Just don't look it in the eye

Well, I'm a red meat eater  
Liar and a cheater  
And I hit the ground running  
Take everything I need

I'm a red meat eater  
Liar and a cheater  
Always hit the ground running  
Take everything I need

And you can watch it go

Out here on the ocean  
I've been set adrift  
The water doesn't scare me  
It's just the people that I miss

And the darkness at the bottom  
Has forgotten what's on top  
The Summers never cease here  
And it'll never stop

Well, I'm a red meat eater  
Liar and a cheater  
And I shook the hand of God  
I met him at my dealer  
What to do with the killing  
And the heavy and the spell  
And the existential action  
And fire put to Hell  
It's the deep end of the ocean  
It's the darkness of our sea  
Where no light is reflected

Is that what's to become of me?  
To become of me?

Well, I'm a red meat eater  
Liar and a cheater  
And I shook the hand of God  
I met him at my dealers  
What's to do with the killing

And the heavy and the smell  
The existential action  
The fire-pits of Hell  
It's so nice to see you all  
But my time is just a sliver  
The Devil's on fire  
And he's rollin' down the river

He's a red meat eater  
A liar and a cheater  
And he hits the ground running  
Takes everything he needs

It's the deep end of the ocean  
It is the darkness of the sea  
Where no light is reflected  
Is that what's to become of me?  
To become of me?  
To become of me?  
To become of me?
