

It's All Over

Headstones

Over the moon
Over the top
Over the people
Who told you to stop
It's all over
It's all over
Just like I told you
It's all over
Over the sky
Into the future
You do what you can
You do what suits you
It's all over
It's all over
Just like I told you
It's all over
Walking hand in hand with my addiction
Make it twist and turn I ain't built to burn
You think I'm swinging but then I kick
Under my skin
Between the breath
You're trolling for friends in a ghost town
Called uselessness
It's all over
It's all over
Just like I told you
It's all over
Walking hand in hand with my addiction
