

## Losing Control

### Headstones

Where does it go when the last breath leaves me  
Stinking drinking I'm slowing down  
Jesus Christ almighty save me  
Where ever you want I'll kneel down  
Busted headlights broken ribs so hoarse I can't swallow  
Changed my name about an hour ago and I drive into tomorrow  
Losing control - I can't take it  
Losing control - man if I could  
Losing control - I won't fake it  
Losing cont - trol  
Catch me now  
I'm slipping baby  
I don't know where to turn  
Last time that I saw him man he did the chicken while he burned  
Line 'em up I shoot 'em down no never mind to me  
Contain it all the hard way I do it intravenously  
So many ways to define it  
It simply is a curse  
And what it was that drove me here  
A fifth of it was nerve  
Busted headlights broken ribs so numb that I'm hollow  
Changed the claim about an hour ago  
I drive into tomorrow
