

# Sunlight Kills the Stars

Headstones

I was torn up in the city  
I couldn't close my eyes  
I was ill-equipped to deal with it  
An' it came as no surprise

I need a road that goes to nowhere  
Bury needle in my car  
I need to drive at night with no headlights  
'Til the sunlight kills the stars  
'Til the sunlight kills the stars  
'Til the sunlight kills the stars  
I need to drive at night with no headlights  
'Til the sunlight kills the stars  
Kills the stars

And there's always someone calling to recreate the facts  
With their endless conversations, they're just turning my eyes black

I need a road that goes to nowhere  
Lose the hammer in my heart  
I need to drive at night with no headlights  
'Til the sunlight kills the stars  
'Til the sunlight kills the stars  
The sunlight kills the stars  
I need to drive at night with no headlights  
'Til the sunlight kills the stars

The world is shakin', but my hands are steady  
Just tryin' to get from A to B today  
May be tomorrow 'til I reconnect it  
May be a while 'til I feel ok

Kill the stars  
Kill the stars

An' I can't predict the moment  
When everything goes black  
An' I can't retrace the minutes  
I have learned not to look back

I need a road that goes to nowhere  
Bury needle in my car  
I need to drive at night with no headlights  
'Til the sunlight kills the stars  
'Til the sunlight kills the stars  
'Til the sunlight kills the stars  
I need to drive at night with no headlights  
'Til the sunlight kills the stars  
Kills the stars

The world is shakin', but my hands are steady  
Just tryin' to get from A to B today  
May be tomorrow 'til I reconnect it  
May be a while 'til I feel ok

Kill the stars

Lose the hammer in my heart
