

Tangled

Headstones

Kinda get a little
Tangled in the middle and it's
Getting away from me now
All the little pieces excuses and the reasons they're
Getting me down
And we don't learn a thing

Take it all for granted wake up a little frantic
Like it's all some free ride
Forever complicated just can't negotiate it
Can't sleep at night
And we don't learn a thing

Sailing into something
With the baggage that we bring

Hands are on the wheel
Not sure that I feel
But I say
It's not me now
We just keep on moving
Reload and keep shooting we're just
Lost at sea now
We don't learn a thing

Sailing into something
With the baggage that you bring
And all I know for certain
Is we can't take everything

Kinda get a little
Tangled in the middle and it's
Getting away from me now
All the little pieces excuses and the reasons they're
Just getting me down
And we don't learn a thing

Sailing into something
With the baggage that you bring
And all I know for certain
Is we can't take everything
Sailing into something
With the baggage that you bring

Kinda get a little
Tangled in the middle and it's
Getting away from me now
All the little pieces excuses and the reasons they're
Just getting me down
And we don't... learn a thing
