C4

Heart Attack Man

I've rigged the room with explosives
Violent and void of emotion
I'm not afraid to go up in flames
In a moment's notice

I hate to be the bad guy
Say your prayers, 'cause this could be your last night
I feel like I've been here before
But now I'm strapped in C4

I've rigged the room with explosives
Violent and void of emotion
I'm not afraid to go up in flames
In a moment's notice

I don't know what's gotten into me
I've got a sudden urge to blow it all to smithereens
This could go one of two ways
Listen up, or end up on the front page

Everybody get the fuck up, or else I'll do it
All or nothing, now or never, so don't be stupid

I've rigged the room with explosives
Violent and void of emotion
I'm not afraid to go up in flames
In a moment's notice

I've rigged the room with explosives
Violent and void of emotion
I'm not afraid to go up in flames
In a moment's notice

Hey everybody! Can you hear me?
Listen up! I'll only say this once:
We're running out of time
It's all been fun, but...

I've rigged the room with explosives
Violent and void of emotion
I'm not afraid to go up in flames
In a moment's notice

I've rigged the room with explosives
Violent and void of emotion
I'm not afraid to go up in flames
In a moment's notice
