

## Life Sucks

Heart Attack Man

Looking back on the past four years and wondering  
Why is everyone becoming increasingly distant and detached  
And burning out like a box of matches?  
Am I crazy or are things clearly not the same?

Life sucks, life sucks, life sucks, life sucks

Listening to the songs we always used to drive to  
And now it's so hard to try to forget about it  
And somehow just give them all a new sense of meaning  
But all the associated feelings are etched into my head  
You said that you've just got a lot going on  
But I know that there's more to it  
And you can't even look me in the eye

Life sucks, life sucks, life sucks, life sucks  
Life sucks, life sucks, life sucks, life sucks
