

Practiced In The Mirror

Heart Attack Man

I'm so happy that you're here
You ran it back like how you practiced in the mirror
It's okay you
Feel afraid to

Take it one step at a time
Growing pains and changes in your appetite

Celebrate it
You are doing great and
This is what you waited
All the years the world could never break you

Hold on
Stay awhile
Make yourself comfortable
And hold on
Stay awhile
Make yourself comfortable
And hold on
Stay awhile
Make yourself comfortable
And hold on
Stay awhile
Make yourself comfortable
And hold on
