

Push Me Away

Heart Attack Man

Acting as if the world owes you something
Are you even listening?
I will never understand why you push away your friends

Now the words you said can be applied to you
And I don't care enough to say goodbye to you
I'm never talking to you again
I'm never talking to you again

Sometimes I wonder why do the fuck I even try
Nothing I say or do is ever getting through to you
Sometimes I wonder why do the fuck I even try
Nothing I say or do is ever getting through to you
