

Quit While I'm Still Ahead

Heart Attack Man

Let's get this show on the road
End on a high note
Remember this all through the smoke, cuz I know that I won't
I'm so happy I woke up today and forgot all my problems
I'm going out with a bang
I've said all I wanted

Fuck this, I'm out
Guess I won't see you later

It doesn't get better than this
I finally made it
Over before it begins
Got me thinking
Maybe I should quit while I'm still ahead

When things are this good they can only get worse
Feeling lucky to say I'm so blessed that I'm cursed
I'm so happy to wake up on this God-forsaken earth
Some will say that I gave up, or I got what I deserved

Tell everyone I send my love but I won't make it out tomorrow
Go out on top before I hit the bottom

It doesn't get better than this
I finally made it
Over before it begins
Got me thinking
Maybe I should quit while I'm still ahead

Quit while I'm still ahead
