

The Gallows

Heart Attack Man

Hey! How've you been?
Wasn't sure if you would make it in today
Nice of you to join us, take a seat and enjoy it

Happy graduation from the gallows
You made it!
Spent your last semester in the shadows
And you hated everyone and everything
Never thought you'd make it to the ending
Cold and empty
Happy graduation from the gallows
You made it!

Today you made a breakthrough
Gave you what you needed to say it like you mean it
So sincerely glad you made it here
Congregated with your demons, and kept it all a secret

Bend over backwards to hold it together
Seconds from ending
Better late than never
Seeing the light for the first time in what feels like forever

Happy graduation from the gallows
You made it!
Spent your last semester in the shadows
And you hated everyone and everything
Never thought you'd make it to the ending
Cold and empty
Happy graduation from the gallows
You made it!

Hey! How've you been? Wasn't sure if you would make it in today

Happy graduation from the gallows
You made it!
Spent your last semester in the shadows
And you hated everyone and everything
Never thought you'd make it to the ending
Cold and empty
Happy graduation from the gallows
