

City in Exile

Heart of a Coward

Remember this face before its too late
Don't reach for that blade bitch... I control your fate
I feel no regret
I feel no remorse
Say your fucking prayers!
Don't apologize
There's one regret we share
Your world means shit to me
Say your final prayer
Look what you've done to yourself...
Hit the deck
This city's in exile
(Don't hate me for what I believe in)
It won't be the last time
(We're not the same, don't fucking change)
This city's in exile
(Don't hate me for what I believe in)
It won't be the last time
