

Keep Your Distance

Heart of a Coward

Playing with me and it won't get you far
Leaving me here unfaithful and scarred
Begging for mercy it won't get you praise
Release me
Release me
Take me away from this place
Untie me from your tightening grasp and I'll make sure that you
fall
You hold your head above the rest
I'll twist this blade till your dead
Your eyes roll back into your skull
Who's controlling now? who's controlling?
You thought this day would never come
Who's the bitch now?
You're the bitch!
Release me
Take me away from the place
Release me
Get me away from here
Mine for eternity... that's what you swore to me
Now you break these vows and perish
Bitch!
