

A Million Miles

Heart

If the 59 is gone
That's the train I am on
You can hear the whistle below a million miles

I would give up all my life
Trying to get it right
I'm five million miles from my home

I got one
I got two
I got three
I got four
I got five million miles till I get home

I got one
I got two
I got three
I got four
I got five million miles till I get home

I got one
I got two
I got three
I got four
I got five million miles till I get home

If the 59 is gone
That's the train I am on
You can hear the whistle below a million miles

I would give up all my life
Trying to get it right
I'm five million miles from my home

I got one
I got two
I got three
I got four
I got five million miles till I get home

I got one
I got two
I got three
I got four
I got five million miles till I get home
