Christmas Waits

How long have I been watching from my window? Running through my life, watching it all go by? Seems like I've always got a destination Running down the time, pushing to the front of the line I wanna go where the snow is falling Voices of friends like Angels calling (Out in the pines) (Oh, beautiful tree) I wanna be there where Christmas waits for me (Christmas waits) Gather round the fire, let the weather rage outside (Christmas waits) I always will be welcome for the rest of my life When Christmas waits I wanna go where the snow is falling Voices of friends like Angels calling (Out in the pines) (Oh, beautiful tree) I wanna be there where Christmas waits for me (Christmas waits) Gather round the fire, let the weather rage outside (Christmas waits) I always will be welcome for the rest of my life When Christmas waits, Christmas waits

Heart
