

# Cruel Nights

Heart

Every night without you is more than I can bear  
Moonlight can be torture  
When your love isn't there  
I see you in the shadows  
I can hear you in the wind  
Think of you and I can feel my world closing in  
I can't sleep I keep wishing I could touch you  
I'd be fine if I could make it through  
Through these

Cruel nights  
Cruel nights  
Missing you nights  
What do I do nights  
Cruel nights without your love

Counting every minute  
Every minute feels like days  
Feels like time is standing still since you've been away  
Always thought you'd stay forever  
Always thought that you'd be here  
Now it's been a lifetime since I held you near  
Days crawl by, I keep wishing they'd be over  
But I know they're only leading me to  
To these

Cruel nights  
Cruel nights  
Missing you nights  
What do I do nights

Cruel nights without your love  
(Cruel nights) since we've been apart  
(Cruel nights) it's been tearing up my heart  
(What do I do nights) since you've been  
away baby  
Cruel nights

Oh I just can't get through another night  
Without you beside me  
I need you beside me

I can't sleep  
I keep wishing I could touch you  
I'd be fine if I could make it through  
Through these cruel nights...

Cruel nights  
Cruel nights
