

# I'm Fine

Heart

Anyway, as I was saying  
Before we got all blown away, oh man  
Flash flood in a paper cup  
No chance to study up, oh man

What's the Chad confetti stuff  
Dhooting out the TV is it Y2K or its it World War 3?  
The dogs of reason ran away  
Way into the fray and why the hell we have to pay?

Have you heard?

As I was saying, I'm fine  
Things don't make sense to me all the time yeah  
I'm hanging right on that line  
As I was saying, oh I'm fine

Mid summer life line in stone Crimson love  
Slo-mo explosion come down from above  
Tune out the noise of the tumbling world  
If you can hear me its' all in a word, have you heard?

As I was saying, I'm fine  
Things don't make sense to me all the time  
Anyway, as I was saying  
Excuse me for just a moment please, oh man  
I'm okay I'm okay I'll come around  
Right after I have this little break down, break down, break do
