

A Beautiful Life

Heartless Bastards

I can see now the road is clear
Been looking for the signs there to steer me
Break a mold that's ages old
Shake patterns from the trees towering above me
Oh like a newborn baby
I I will begin again

And I open up my arms wide and I'm not holding on
Free to be me beautiful and strong
It's a beautiful life
It's a beautiful life
Oh if you let it be

Oh found the key to my loneliness
I had to find, find a new space within
Life in perpetual motion
And I keep moving on

And I open up my arms wide and I'm not holding on
Free to be me beautiful and strong
It's a beautiful life
It's a beautiful life
Oh if you let it be

Stop letting fear distance one another
Can we be good to each other
Can you hear me crying through these growing pains
Can you hear me laughing through these growing pains

And oh my heart is open, is open, is open oh
And oh my heart is open, is open, is open oh
It's a beautiful life
Oh if you let it be
It's a beautiful life
Oh if you let it be
