

## Doesn't Matter Now

Heartless Bastards

No use to sit and wonder why baby it don't matter now  
No use to sit and wonder why baby it don't matter now

You got to let go of your worry  
Oh honey you didn't do nothing wrong  
Sometimes that's just the way it is  
You just gotta move on

If at first you don't succeed try try again  
You just gotta let love, let love in

No use to sit and wonder why baby it don't matter now  
No use to sit and wonder why baby it don't matter now

You got to let go of your worry  
Oh honey you didn't do nothing wrong  
Sometimes that's just the way it is  
You just gotta move on

If at first you don't succeed try try again  
You just gotta let love, let love in

And all is well it was just a spell  
Cause it takes time to ease your mind  
And all is well it was just a spell  
Cause it takes time to ease your mind

No use to sit and wonder why baby it don't matter now  
No use to sit and wonder why baby it don't matter now

You just gotta let love, let love in  
Oh you gotta let love, let love in
