

How Low

Heartless Bastards

People can we get together and help each other out
The temperature is rising
Oh the world is filled with so much greed
Can we ask ourselves how much we really need
On and on it never stops oh don't you see
On and on it never stops how much do you really need
Oh how low will you go to get to the top
I hope we never really have find out
Oh how low will you go to get to the top
Can we all try to find some balance

Sometimes I can hardly take it
Oh the world has so much needless suffering
On and on it never stops oh don't you see
On and on it never stops how much do you really need
Oh how low will you go to get to the top
I hope we never really have find out
Oh how low will you go oh to get to the top
Can we all try to find some balance

Let's all fill up with love
Let's all fill up with love
Let's all fill up with love
Let's all fill up with love

Sometimes I can hardly take it
Oh the world has so much needless suffering
On and on it never stops oh don't you see
Let's lift each other up now or just let each other be
Oh how low will you go to get to the top
I hope we never really have find out
Oh how low will you go oh to get to the top
Can we all try to find some balance
