

After All This Time

Heather Nova

When you find it, when you find the one
Recognise it's where your soul belongs
Put your hands out, nothing breaks your fall
Take a leap now you're gonna risk it all

Years of stillness, like a winter's frost
Never really knew how much I'd lost
Every cell now, coming back to life
Every breath now, in a different light

I don't want to shut my eyes
I'm open to the pain that might be coming
This is what I never thought I'd find
Real love, after all this time

When it finds you everything is clear
All the roads you took have brought you here
Looking up now to an endless sky
Tears are coming, and you don't know why

I don't want to shut my eyes
I'm open to the pain that might be coming
This is what I never thought I'd find
Real love, after all this time

I don't want to shut my eyes
I'm open to the joy that might be coming
This is what I never thought I'd find
Real love, after all this time

I don't want to shut my eyes
I'm open to the joy that might be coming
This is what I never thought I'd find
Real love, after all this time
Real love, after all this time
