

## Lie Down in the Bed You've Made

Heather Nova

Lie down in the bed you've made  
I can hear my mother saying  
Don't be afraid to stay  
To keep your word is a beautiful thing  
Lie down in the summer grass  
See the clouds that look like horses  
Sometimes you gotta let them pass  
Tell yourself not to ride away  
Alone, when all those horses call your name

Cause you, you gotta make me feel  
Make me feel again  
I said you, you gotta make me feel  
Lie down in the bed you've made  
Lie down in the bed you've made

Blue vines of morning glory  
Growing up around our hearts  
These dont's, always a different story  
When you look at it in a different way  
I know, I know there was some lay ways

Cause you, you gotta make me feel  
Make me feel again  
I said you, you gotta make me feel  
Lie down in the bed you've made  
Lie down in the bed you've made

Cause you, you gotta make me feel  
Make me feel again  
I said you, you gotta make me feel  
Lie down in the bed you've made  
Lie down in the bed you've made
