

## Vincent

Heather Nova

Vincent, yours is  
The first name I've ever sung  
Sometimes life is a movie  
And it's only just begun  
Waves are crashing  
Through my veins I'm over come  
Sometimes life is a movie  
And it's just begun

And the stars will make us wild  
And the dark will make us hesitate  
But that's our fate  
The stars will make us wild  
It's not too late for us

I want to laugh  
Sing autumn leaves and whistle grass with you  
I want to lie  
Under any kind of sky

And the stars will make us wild  
And the dark will make us hesitate  
But that's our fate  
The stars will make us wild  
It's not too late for us

Les vagues viennent s'écraser  
Dans mes veines et je m'enivre  
Vincent, je veux  
Only to be with you

And the stars will make us wild  
And the dark will make us hesitate  
But that's our fate  
The stars will make us wild  
It's not too late for us  
The stars will make us wild  
It's not too late for us  
It's not too late for us
