

Bottle Rocket

Heatmiser

He's a saint by numbers
A watery life full of teeth and pain
Bothered, I'm on my own collar
I'm the idiot who knows your name

(Anxious to hide)
Pitying my own way down
(Just broken in two)
Right out the door and lose mighty fast
(Exit my fist)

I'm a whole conspiracy
(Oh, my manner)
I'm gonna have him framed
(On my defense)
Oh, anything to pin him down
(Does any of it matter?)
I'm the idiot who won't take the blame

(Anxious to hide)
Pitying my own way down
(Just broken in two)
Right out the door and lose mighty fast
(Anxious to hide)
But I can't win now, I just can't

I never swallowed that spite before
A watery life full of teeth and pain
(All that shit)
Bothered, I'm on my own collar
(All that shit)
I'm the idiot who knows your name¹

(Anxious to hide)
Pitying my own way down
(Just broken in two)
Right out the door and lose mighty fast
(Anxious to hide)
But I can't win now, I just can't

(I can't win now, already stepped in the socket)
Can't win now
(Set myself off like a bottle rocket)
I just can't
(Set myself off like a bottle rocket)
Can't win now
