

All Talked Out

Heatwave

My love ain't no one who can turn me on
Lady just like the way you do
But girl its time tah move along
There ain't no use in you feelin' blue

I know we've had our groovy times
But i see all the danger signs
There ain't no doubt
We're all talked out

Don't tell me lies cause that's all wrong
I've been ah watchin' what you do
You know I've tried to get it on
Baby there ain't no pleasin' you

I know we've had our groovy times
But I see all the danger signs
There ain't no doubt
We're all talked out
It's over now
We're all talked out

Girl it's time for me to go
Got to find another day
There ain't nuthin' left to throw
Cause we threw it all away

We've tried to fly ah thousand times
But lately I've been losin' track
So kiss me now and say goodbye
Cause baby there ain't no turnin' back

I know we've had our groovy times
But i see all the danger signs
There ain't no doubt
We're all talked out
It's over now
We're all talked out

It's over now the love we found
We're all talked out
