Girl I like it when you say to me (When you say you love me)  
I'm the only one you're thinking of (Glad you're thinking of me)  
Gotta tell you what you mean to me  
what I feel is love

There is sunshine when I hold you near (When I hold you baby)  
When your tender lips are touching mine (When I kiss you baby)  
And I know that all the love that's here  
we can share through love
