

Lettin' It Loose

Heatwave

Everybody say woo (Woo)
Hip-hop, skippidy doo
We're gonna let the beat lay this rock on you

Have you got pains inside your head
Caused by having no bread
And being fired by your employer?
Is there a lady in your life
Who is known to your wife?
Better find yourself a lawyer

But if you think that you can make it thru the night
Just hit the city streets and join the people livin' the life
Start lettin' it loose

Now you seem too calm
Feeling blue
Time to know you're strong
Let it loose

Was that you dancin' out of beat?
Have you got two left feet?
Do you find your friends ignore you?
Is there an ulcer on the way?
Has your hair been turned to grey?
Did the neighbor's cat just claw ya?

Open you eyes, we'll show you what you need to do
There's one solution that is guaranteed to carry you thru
Start lettin' it loose

Now you seem too calm
Feeling blue
Start lettin' it loose
Time to know you're strong
Let it loose

So put a smile on your face
'Cause that's the only thing that you need
Can't you see?
Don't have to carry the load
Just leave it till tomorrow
Live by tonight in a dream

Taxman's tryin' to nail me to the wall
I lost my ride, I got to stay inside (Woo)
Give my lawyer a call
I'll walk in place
Put a smile on my face
Ah what's the use?
I'll let it loose

Open your eyes, we'll show you what you need to do
There's one solution that is guaranteed to carry you thru
Start lettin' it
Start lettin' it loose

Now you seem too calm
Feeling blue
Start lettin' it loose
Time to know you're strong
Let it loose

So put a smile on your face
'Cause that's the only thing that you need
Can't you see?
Don't have to carry the load
Just leave it till tomorrow
Live by tonight in a dream

Is that the landlord at your door
Like he's ready for war?
Do you feel like you're a failure?
You got no money, got no job
But you keep on being mugged
And the taxman's tryin' to nail ya

Well if you think that you can make it thru the night
Just hit the city streets and join the people livin' the life
Start lettin' it
Start lettin' it loose

Now you seem too calm
Feeling blue
Start lettin' it loose
Time to know you're strong
Let it loose
Start lettin' it loose
