

# One Night Tan

Heatwave

Feelin' like you flipped to drown  
And you need sun  
Think that you can take it hot  
Then ride this rhythm

But where you share tonight  
The mighty groove is shining bright (all night)  
Get it while you can  
The one night tan

Ain't no need to go to Spain  
The sunshine's here  
We can stop the pouring rain  
And keep your sky clear

But where you share tonight  
The mighty groove is shining bright (all night)  
Get it while you can  
The one night tan

Set yourself in motion  
You know it's up to you  
You better use some lotion  
The beat burning through

We can make you blister good  
So come on in  
Feelin' like you know you should  
And you'll be peelin'

So where you share tonight (sounds alright)  
The mighty groove is shining bright (all night)  
Get it while you can  
The one night tan

So where you share tonight (sounds alright)  
The mighty groove is shining bright (all night)  
Get it while you can  
The one night tan

Get it while you can  
The one night tan
