

Party Poops

Heatwave

Are you set to sweat? Can you party?
Make it to the music, mm-hmm
Now people don't forget, a-once it's started
We can make you prove it
Get yourself a groove, now don't be jivin'
Boogie is the rulin' (Let your body move)
Time to make a move, a-no use hidin'
We won't stand no foolin' 'round (Get down)

So don't you be no party poop
'Cause we don't need no party poops
We want to see y'all party poops
Do the do now
Ain't got no time for party poops
Don't want to find no party poops
Get up and shine you party poops
Do the do now, get down

Let your body move
Let your body move

Come on out your seat, get to cookin'
Know that you can do it (You can do it, you can do it)
Lift those funky feet, start 'em bookin'
There ain't nothin' to it
Sink into the soul, keep the feelin'
Want to see ya shake it
Now don't you start to fold, a-check yo' breathin' (Let your body move)
You just got to make it now (Get down)

So don't you be no party poop
'Cause we don't need no party poops
We want to see y'all party poops
Do the do now
Ain't got no time for party poops
Don't want to find no party poops
Get up and shine you party poops
Do the do now

So don't you be no party poop
'Cause we don't need no party poops
We want to see y'all party poops
Do the do now (So let your friends come shake it out)
Ain't got no time for party poops
Don't want to find no party poops
Get up and shine you party poops
Do the do now (You got to come enjoy this sound)
So don't you be no party poop
'Cause we don't need no party poops
We want to see y'all party poops
Do the do now (So let your friends come shake it out)
Ain't got no time for party poops
Don't want to find no party poops
Get up and shine you party poops
Do the do
