

# State To State

## Heatwave

(Say yeah, yeah)  
(Say yeah)

Takin' a bite, we'll ride from The Apple  
It's time to set this thing in motion  
Roll through Detroit to feel out the action  
You know that they'll be causing a commotion  
West to Chicago for a soulful supercharge  
We'll be groovin' through Ohio reaching out for the stars

Because the beat is in heat  
And it's coming your way  
We'll be burnin' through the nation  
Boogyin' from state to state  
All the way

Turnin' around to catch Philadelphia  
We're sure they got their sounds together  
Well, hittin' the South through both Carolinas  
'Cause they can funk in any kind of weather  
We'll blast Atlanta with a special kind of brew  
'Cause them folks down there in Georgia know the right thing to move

You know the beat is in heat  
And it's coming your way  
We'll be burnin' through the nation  
Boogyin' from state to state  
(Burnin', groovin', rappin' to the beat)  
All the way  
(Burnin', strollin', dancin' in the street)

Ain't no stop, we're gonna keep it hot  
Got to raise our spirits high above us  
Hold on tight, come on and do it right  
We can bring this world alive with love

Jump on the feelin' and you'll never let it go  
You can grease right into D.C., even rock Idaho

Because the beat is in heat  
And it's coming your way  
We'll be burnin' through the nation  
Boogyin' from state to state  
(Burnin', groovin', rappin' to the beat)  
All the way  
(Burnin', strollin', dancin' in the street)

Ain't no stop, we're gonna keep it hot  
Got to raise our spirits high above us  
Hold on tight, come on and do it right  
We can bring this world alive with love

Leavin' the East we'll steam through to Texas  
No doubt that Houston's got the music  
Well, feet to the West, we'll cruise California  
'Cause L.A. folks ain't never gonna lose it  
No matter where you live, we're comin' after you

So get ready for the rhythm, got to kick off your shoes

Because the beat is in heat  
And it's coming your way (it's comin' your way)  
We'll be burnin' through the nation  
Boogyn' from state to state  
(Burnin', groovin', rappin' to the beat)  
All the way  
(Burnin', strollin', dancin' in the street)  
State to state  
(Burnin', groovin', rappin' to the beat)  
All the way  
(Burnin', strollin', dancin' in the street)  
State to state

Burnin' through the nation  
State to state

There's a party goin' down  
From the East to the West  
You can hear the sound  
Gotta get into the jam  
From the North to the South  
Any way you can

There's a party goin' down
