

# Therm Warfare

## Heatwave

Listen people gonna have us a war  
'Cause we can see the need to fill the air with Therm Warfare  
That's what we're here for  
Are you ready 'cause we're burnin' the floor  
So everybody here can get their share of Therm Warfare  
That's what we're here for

We got a therm war and I'm sure  
That we can win it  
There's nothin' you can do  
We got a therm war and there's more  
'Cause you're right in it  
So just relax and let it thru  
We got a technology  
That gets you hot for free  
And makes you prisoners of the groove  
We're gonna march with the beat  
And fight you with the heat  
So don't show no resistance  
Just give in to defeat

And let's burn tonite (We will lite the sky)  
And let's move up tight (Body heat, makes it right)  
We got love inside (We can lead the the land)  
Let's groove it right (We can win, yes we can)

Tonight, with Thermal Warfare

We're gonna steam up your shoes  
And beat out all your blues  
And if we stay together  
There's no way that we can lose
