

Too Hot to Handle

Heatwave

What's all the funks about?
And it's gonna get to spin ya!
Cause it can smoke the building out!
And make you feel like screaming!
And there's a big fast dance to you
Your eyes will start to wonder
Cause there ain't nothing, ain't nothing you can do
Cause your breath keeps getting shorter and shorter
But don't let it get too hot, too hot to handle

Too Hot! Too Hot!
Too much to stand on
Too much to handle

If the heat gets out of hand
There sure nuff be a fire
Cause you can't stop a blazing band
They'll only take you higher!
You got to step out of the shoes
Cause your beat will make you blister
And it can burn up, burn up all your fuel
And blow out your resistance
Cause don't you let it get too hot

Too hot! Too hot!
Too much to handle
Too much to stand on
But don't let it get too hot
Too Hot! Too Hot!
Too hot to handle
Too hot! Too hot!
Too hot to handle
Too hot! Too hot!
Too much to stand on
So hot! So hot!
So hot to handle
Too much to stand on
Too hot! Too hot!
Too much to stand on
Too hot to handle
Too hot! Too hot!
Too much to stand on
Too hot! Too hot!
Too hot to handle
Too much to stand on
