

Unbreakable

Heaven's Basement

You thought the end was coming
You said the exodus was here
You'd be gone and I would blow it

You said you saw it coming
You said my world would disappear
But you're wrong and now you know it

Out of spite, tonight, we stand and fight

If it's over now
Divide us, divide us
If it's over now
Divide us, divide us
You can't deny we've had our time
If it's over now
Divide us, divide us, divide us
I'm unbreakable

I made a resolution
A pact to never satisfy
Your insecure condition

I'll get my retribution
And I just hope that you don't cry
When you hear my voice inside your head at night

Our time will never die

If it's over now
Divide us, divide us
If it's over now
Divide us, divide us
You can't deny we've had our time
If it's over now
Divide us, divide us, divide us
