

# Million Ways

Heavenly

If there is something wrong  
you go away  
There is no reason to stay here  
you must leave

On your way - far away!

When you're alone  
when your life belongs to you  
You just take it now  
without thinking

And I believe  
you don't forget the hard days  
And I believe today  
you can find your way  
You'll be there  
when everyone needs you  
and your love  
forever

And I believe  
you don't forget your home  
And I believe today  
you can find your way  
Therefore we life  
and so you must change your life  
forever

On your way - on your way!

When you're alone  
when your life belongs to you  
You just take it now  
without thinking

And I believe  
you don't forget the hard days  
And I believe today  
you can find your way  
You'll be there  
when everyone needs you  
and your love  
forever

And I believe  
you don't forget your home  
And I believe today  
you can find your way  
Therefore we life  
and so you must change your life  
forever
