

# Wasted Time

Heavenly

Time is running out on my way  
I already belong to the past  
And getting closer to heaven  
It's hard, cause my spirit is willing  
But my flesh is weak  
We are living in a brave new world

I am still a prisoner  
Shutting away indoors  
No light through the cracks, no freedom  
Walking round and round  
Alone with my soul  
Banging my head against the walls of prison  
My kingdom

Fight on to survive

Out of time my life becomes  
An absolute hell on and on  
I am falling down  
Freedom to survive

I don't want to end it now  
Run away with head held high  
It's hard to wait  
Lost in jail of evil  
My kingdom

My entire life  
Flashing before my eyes  
But the sad reality  
I'm still sentenced to die  
Bring back all memories  
Haunting me day and night  
Reaching back in my destiny  
Full of misery

Time - Wasted Time  
In this darkness night, make your choice  
But there are so many ways you can go  
Biting the dust or staying alive  
Secret time  
In my cell, I wonder why  
Why I chose the road leading to hatred  
and crime  
For me it's too late  
My life is done  
And I will roam till kingdom comes

Time - wasted time  
In this blackness night, make your choice  
But there are so many ways you can go  
Dust to dust or staying alive  
Secret time  
Wasted Time

Sin after sin

I am waiting in the cold  
The deliverance light  
Slowly I am heading to the valley of the damned  
I am falling, falling through the night

[Chorus]
