

Take Me Away

Heavy Load

I Looked for you in the Darkness
Your eyes Were all i could see
I reached out to find you had gone
You left me here by myself

I can't make it on my own
I need your help to get out
I'm living in darkness of shadows
You have to take me away

Darkness of shadows
Take me away
Darkness of shadows
Take me away

(CHORUS)

Take me away, I hate this place
Take me away, I don't want to stay
Take me away, it's such disgrace
Take me away ...

You are the one to help me out
The light i need in the dark
I have a dream and it's you
Together we can touch the stars

Take me away into the night Don't leave me here with my fear
I'm living in the darkness of shadows
You have to take away

Darkness of shadows
Take me away
Darkness of shadows
Take me away

(CHORUS, repeat to fade)

Take me away, I hate this place
Take me away, I don't want to stay
Take me away, it's such disgrace
Take me away ...
