

## As Fire

### Hecate Enthroned

Lies,  
In the end you can't disguise  
What awaits you all and I  
The truth is before your eyes  
The gates open wide  
Sinners, lost souls, bastards, join us now  
Why?  
Lead on by your faith, you're blind  
The secrets you've kept will blind  
You with the horde riding high  
Your fate lies with me  
Stand tall  
Slaughter, kill them all, blood on my hands  
Have no fear, as your death is nigh  
The waves of hate reigning down  
Man's wrath, as old as time  
Relish in blood of me  
No more Christian, no more Muslim  
Kill religion - Judaism  
Kill the mother and the father  
Kill the priest - holy man  
If you believe, that we are all sinners and going to hell  
As fire, raging, burning, hate runs through me  
Release thy demons
