

# Compromise

(Hed) P.E.

I know we can find a common ground  
A higher place  
Read the signs, hear the sound  
Fear my 808s  
Gettin' high, gettin' down  
The fuck out the way  
Seven headed dragon touchin' down  
And we not for play... blah!

We the people in the house  
And we runnin' shit  
Savages in suit and tie  
One on one we hittin' hooks  
From the sky like abdul-jabbar  
Peekaboo it's iron mike  
We stay ready for war

It's a rebel vibration  
It come with a choice  
Move to one's own direction  
The devil will pay soon  
And pay with the truth  
Pay for the lies and deception

I know how ya see me  
It's a lie  
I know what ya heard about the culture  
It's a lie  
I don't buy that you can take what's mine  
I wouldn't try it (Pussy)  
I'll be punk rock 'til I die (My nigga)

We the people in the house  
And we runnin' shit  
We not worried about the clout  
Now we takin' back the power  
From the rich who been robbin' the hood  
And give it back to the poor  
Like we Robin the Hood

It's a rebel vibration  
It come with a choice  
Move to one's own direction  
The devil will pay soon  
And pay with the truth  
Pay for the lies and deception

It's been a long time comin'  
Just beyond the horizon  
This time we hit the ground runnin'  
This time we won't compromise  
Jus step aside  
Lose your pride  
No sacrifice  
No shame, no left or right  
It's been a long time comin'  
This time we won't be denied

Radio one broadcast  
SOS from the mothership  
My people comin' in hot  
We on some other shit  
Hardcore family worldwide  
Change is comin' quick  
We the Calvary  
Comin' hard, never comin' quick (Pussy)  
You a lie  
We know you fullashit  
Dem wan conquer and divide  
Same ole tricks  
Same ole bitch  
Same ole tactics  
That's why we eat the rich

It's a rebel vibration  
It come with a choice  
Move to one's own direction  
The devil will pay soon  
And pay with the truth  
Pay for the lies and deception

It's been a long time comin'  
Just beyond the horizon  
This time we hit the ground runnin'  
This time we won't compromise  
Jus step aside  
Lose your pride  
No sacrifice  
No shame, no left or right  
It's been a long time comin'  
This time we won't be denied

My patience is all but gone  
The time is surely running out  
Between a riot and a fight  
How about putting out the fire  
Before it finds a light  
Stop bloody testing  
Our very right to exist

I wave a black flag  
Now you know where I'm comin' from  
Power to the people... right on!  
We antifa-cist  
A Trojan horse  
We takin' office  
We judge in the court  
A dancehall from my own private Idaho  
I smash y'all with love  
Try it ya like it ho  
Who cyan stop the tide  
Don't even try it  
One world, one love turn  
Life a kaleidoscope

It's a rebel vibration (Remember those?)  
It come with a choice  
Move to one's own direction  
The devil will pay soon  
And pay with the truth

Pay for the lies and deception

It's been a long time comin'  
Just beyond the horizon  
This time we hit the ground runnin'  
This time we won't compromise  
Jus step aside  
Lose your pride  
No sacrifice  
No shame, no left or right  
It's been a long time comin'  
This time we won't be denied
