(Hed) P.E.

I know, I know, I know
I know, I know, I know

I can make it better, let me show you
Go ahead and take it, I can make it right
I know you hate it when you're sober
Well don't you worry, no you can't deny me
I can show you how to get away
It's so easy, I can make your night and day
When we start it's never over till it's over
I know your heart, you can ride with me

I know, I know, I know
I know just what you want, what you want?
I know, I know, I know
I got just what you need, what you need?
I know, I know, I know
You can't just walk away from me
I know, I know, I know
I know where to go, just trust and follow me

Don't listen to 'em, they don't know you
Forget about it, you can come with me
I'll make it better, let me show you
It's do or die, come and run with me
If you're bored, I got a headchange for you
I'll be your ticket, I can take you there
Go ahead, don't you worry 'bout the rat race
Just be somebody, don't you be so scared

I know, I know, I know
I know just what you want, what you want?
I know, I know, I know
I got just what you need, what you need?
I know, I know, I know
You can't just walk away from me
I know, I know, I know
I know where to go, just trust and follow me

I know all your secrets
You know I know what's on your mind
Throw it all away, you don't need it
Trust and follow me, leave it all behind
Let it go, let it go
Just let it go, you don't need it
Just trust and follow, I would never lie
I'll get ya high

I can make it better, let me show you
Go ahead and take it, I can make it right
I know you hate it when you're sober
Well don't you worry, no you can't deny me
I can show you how to get away
It's so easy, I can make your night and day
When we start it's never over till it's over
I know your heart, you can ride with me

I know, I know, I know
I know just what you want, what you want?
I know, I know, I know
I got just what you need, what you need?
I know, I know, I know
You can't just walk away from me
I know, I know, I know
I know where to go, just trust and follow me

I know, I know, I know
I know where to go, just trust and follow me
I know, I know, I know
I know just what you want, what you want?
I know, I know, I know
I know, I know, I know
You can't just walk away from me
