

Dieanotherday

(Hed) P.E.

We gon die another day but not today
Tonite we leave it all up in the cage
So fuck a stage - it's not a game
You need to stop playin wit me
Not today - no fuckin way

We comin for the title
We takin out all our rivals
We murdah the competition
We kill 'em all for survival
I leave a little piece of myself
Every time I leave without you
We all grew up in dysfunction
I'm jus tryin to break the cycle

Before the cycle break me
Love or hate me
You'll never erase me

Who's laughin now?
Count me in, I'm all in
Never count me out
Who's laughin now?
Count me in, I'm all in
Never count me out

We hittin em, we hittin em
We hittin em, yea we hittin em
We hittin em, we hittin em
We hittin em, yea we hittin em

They countin us out
They countin us out
Now they down for the count
The devil can wait
They countin us out
They countin us out
Now they down for the count
D-d-die another day

Choose (true)
Try to see thru the fog (thru the fog)
But the pathway disappear (disappear)
So we go to work, go to war (kill em all)
You live your life on the face (it's fake)
I leave it all in the cage (in the cage)
Drawing my life on the page (on the page)
Actin a fool on the stage (on the stage)

Childhood memories (remember?)
Dandelions float on the breeze (it's beautiful)
Can't see the present thru the past (let it go)
It's too depressin not to laugh (fuck em all)

If death is for the dyin I'ma live it up
I'ma get the bag I'ma rip it up
I'ma get the girl I'ma tie her up

Buy her lotta toys watch her fall in love
