

Forward Go!

(Hed) P.E.

In this time of the desert days
In the end as the darkness fades
Witness the end of an age
As another begins you can face my rage

Raised in a place so crazy My enemies can't phase me
5,000 years in the making
Money, Power, Sex - All there for the taking
Regrets? I never look back
I can't change the past

2 steps forward - step back
My future's right on track
My people learned our lesson
Eyes wide open - On a mission

Wisdom my ammunition
I don't need your permission
To forward go!
Straight through the sun
We can make it
We are one

Time to forward go
Through the sun
I know we can make it
We are one
This time we got it right
My people stand and fight
I'm not afraid of the darkness
Never too late to end what you started
Raised in this world so crazy
My enemies can't phase me

We don't need your religion
It's my life - It's my decision

Mistakes? We all have made 'em
It's impossible to change 'em
2 steps forward - 1 step back
My future right on track
Through the drama and the pain
I wouldn't change a thing
Wisdom my ammunition
I don't need your permission

To forward go!
Straight through the sun
We can make it
We are one

Time to forward go!
Through the sun
I know we can make it
We are one

In this time the truth will rise

When the motherships cover the sky
No more secrets - No more lies
A new world is born
Let the old one die!
Raised in this time so crazy
These rednecks just can't phase me
These 4 walls can't hold me
I'll never stop dreaming
You will never control me

We fall, but we never stay down
We stand up on higher ground
Take 2 steps forward - 1 step back
My heart is right on track
Through the drama and the pain
I wouldn't change a thing

Wisdom my ammunition
We don't need your permission

To forward go!
Straight through the sun
We can make it
We are one

Time to forward go!
Through the sun
I know we can make it
We are one
