This renegade, no I won't obey this throne  
You a devil and you gots to go  
Baby let me take you to a, muthafucka  
Lets take a trip, a trip we about to take you to a place  
Without police, in the sun, a holiday  
Where I fuck ya on the beach, while the Bob Marley plays  
Smokin California Kush, all the muthafuckin day  
Haha, okay, it's the American way, and I'm American made  
So I fight the revolution, I fight until my dying day  
Jonny Richter

What up  
Now let me tell you about my higher ground situation  
It's like I'm on a paid vacation, getting paid for blazing  
Nobody believe, like cattle I'm grazing  
On thick steaks and big tits, it's amazing  
Its outstanding, who woulda thought that  
I go from summer sex, to getting on HED's tracks  
Rapping rock, spitting and kicking  
Finger licking I'm good, like Kentucky fried chicken  
Mashed potatoes and gravy, it's crazy  
Food for the soul is what Suburban Noize be making  
Yeah we keeping it real, and keeping it funky  
You know we got the dope for all the hip hop junkies  
So come on come on to the higher ground  
We're the born for some pins, and we passing around  
Everyday for the girls, and we got what you need  
KMK and HED PE, DJ drop that beat

So let me twist this spliff for the underground  
We know we flipping wigs with these sick rip hop sounds  
Joints keep lighting, freedom fighting until we die  
You can sleepwalk through your life, or you can open your eyes

Pushing buttons, causing mass hysteria

Just a little taste of some rip hop mayhem  
Across the nation, the revolutions big  
Got the FBI all over our dicks  
From these underground tactics, we doing backflips  
Ripping all the pits, when the rip hop shit hits
