

Illuminated

(Hed) P.E.

It's all original
Yeah
Rock rock away from the lighthouse
Rock rock away
Let it be known
We are going home
One day, one night
We light up the night with the fire
Free free it up
Get your mind right
Get your mind right
Get ready for the fight
The fight of your life
Do what I did
Time to do it right
Catch it right now

Yeah
In the long run
What's it all matter
When we all gone
Nothing else matter
Just family and music
This short life came and gone before we knew it
Step like a razor
Hardcore rudy
Bad man executioner
Judge jury
Guilty as charged
Cold blooded hustler
Bigger than you
Hotter than

I need destiny
Fucking with my destiny
Man I got the recipe
The record beats the recipe
So murder up everything
But never leave no weapon in
It's evident
Everything that I touch is just heaven sent
I represent my family, people to the fullest
I'd even take a bullet just to show them what they knowing
I keep rolling and I'm going for the top position
My shit is bomb, it's the coldest
Fuck the opposition

It's all original
Yeah
Rock rock away from the lighthouse
Rock rock away
Let it be known
We are going home
One day, one night
We light up the night with the fire
Free free it up
Get your mind right

Get your mind right
Get ready for the fight
The fight of your life
Do what I did
Time to do it right
Catch it right now

Straight out the womb
I was dropping doom
Locking into the doom
I got consumed
First time I heard the bass boom
Make some room
For a groom?
Know it's multiplying?
Overwind that's how the time goes
My mind goes to a box
Been toxic with my walking
Half sack
A fat stack of cassettes
Cigarettes all up in my backpack
Was all that from the greater to the fatal
Then whatever's after that
Swinging for the fences
Come for yours and I blow it back
I've been feeling so long and deep wrong?
Now I have to stop drop and roll or maybe light up a bowl
Write a song when the mood hits
Knucks, we gonna do this?
My rhymes might be rudest, not a nudist or a buddhist
Look to the hills
But I might reach for Nirvana
Masadonna Madonna?
Don't try what's up in my genre
Take it all in
Use it and prove I'm reimbursed
Don't give up a giving from the crib to the hearse

It's all original
Yeah
Rock rock away from the lighthouse
Rock rock away
Let it be known
We are going home
One day, one night
We light up the night with the fire
Free free it up
Get your mind right
Get your mind right
Get ready for the fight
The fight of your life
Do what I did
Time to get it right
