

Jah Know

(Hed) P.E.

Jah know...Jah know
Zion...Zion

I waited my whole life
For you to arrive
Now I got to do right
I got to be there
Guide you like a light
Teach you how to fight
For yourself and whats right
I got to be there

My boy a star shining bright in my life
His mudda gimme something one of a kind
Flesh of my flesh and blood of my blood
A perfect circle a triangle of love

Jah know...Jah know
Zion...Zion

I waited my whole life to meet you...

Just know I will be there for you
For you...I can move a mountain
Hold on to your dreams
And follow through
For you...I can stop the rain
Daddy will be there for you
For you...I can live forever
Hold on to your dreams
And follow through

No, never let this world bring you down
I'll always be around... around for you

I waited my whole life
For you to arrive
Now I got to provide
I got to be there
Guide you like a light
Teach you wrong from right
Hold you through the night
I got to be there

My boy a star shining bright like the sun
His mudda bless me with a foundation
Flesh of my flesh and blood of my blood
A perfect circle a triangle of love

Jah know...Jah know
Zion...Zion

I waited my whole life to meet you...

Just know I will be there for you
For you...I can move a mountain
Hold on to your dreams

And follow through
For you...I can stop the rain
Daddy will be there for you
For you...I can live forever
Hold on to your dreams
And follow through
Never let this world bring you down
I'll always be around...for you

And nothing can change that

No! No! No! Nothing can change that!...

Jah know...Jah know
Zion...Zion

I waited my whole life to meet you...

Just know I will be there for you
For you...I can move a mountain
Hold on to your dreams
And follow through
For you...I can stop the rain
Daddy will be there for you
For you...I can live forever
Hold on to your dreams
And follow through
Never let this world bring you down
I'll always be around...for you
