

Last Call

(Hed) P.E.

I and I won't fear such a virus
Respect the youth them
The dead walk among us now
Vampire in both houses of congress
Respect the yoot dem
But don't get me started now

No one know not the place nor the time right
The reaper come like a thief in the night right
Hard to stay grounded when you stay so high
When the reaper come I'll be ready with the 9

Ready with the 9 when they come to take what's mine
And when he come in I'll tell him it's not my time
These cowards runnin' for cover I'm on the grind
Like I'm disfigured, montana... the world is mine

It's the last call she not ready to go
So we not leavin' we party crashin'
It's after hours we dine and dashin'
Curtain never closin' we ain't never goin' home

No time for us jus a drop jus a drop of blood
In a desert of dust and bone and shadow
(We ain't never goin' home)

I and I won't fear such a virus
Respect the youth them
The dead walk among us now
Vampire in both houses of congress
Respect the yoot dem
But don't get me started now

Vampire in the house we bleed dem
Big dick in da mout dem need dem
Not worried bout clout in da mornin'
Same sun rise on da boss and the boring
One love for the life and the living
One blessing for the gift and the giving
One for the dead and dyin'
One for the drink and the drinkin'
Yolo - so we bingin' up all night on the weekend tweekin'
Never too late for the stardust shootin'
Never too shy in a riot we lootin'

We at the pub
We watchin' the fights
We laughin' the night away
We at the club
My girl lookin' fine
We rockin' our lives away tonight

It's the last call, she not ready to go
So we not leavin', we party crashin'
It's after hours, we dine and dashin'
Curtain never closin' we ain't never goin' home

No time for us jus a drop jus a drop of blood
In a desert of dust and bone and shadow
(We ain't never goin' home)

No time for us jus a drop jus a drop of blood
In a desert of dust and bone and shadow
