

# No Turning Back

(Hed) P.E.

Before you change the world  
You got to change yourself  
Before you get to heaven  
You got to go through hell  
Nobody can save you  
No one is above and  
We stand alone  
Nobody can break you  
We gotta leave or we go alone?  
The sun set on the soul of Babylon  
My soul rests on the road less traveled upon  
Why do my enemies have hatred and jealousy  
They want to bury me  
Take my life beyond my energy?

Murderer  
Blood is on your shoulder  
Killer today then a killer tomorrow  
Murderer  
Blood is on your shoulder  
Killer today then a killer tomorrow  
No turning back  
Never  
No turning back  
Never  
No one can judge me now  
No turning back  
Fuck you  
Me never look back  
Fuck you  
We the people stand together  
Or we fall apart

Never forget where you come from or who the fuck you are  
I fight for the youth stand up for the poor and the weak brother  
I fight for the truth stand up for the hungry the meek sister  
The sun set on the pigs of war tonight  
My soul rests behind these Babylon walls tonight  
Nothing can stop me from making a choice  
Nobody can bully me  
No one can silence my voice  
Fuck you

Murderer  
Blood is on your shoulder  
Killer today then a killer tomorrow  
Murderer  
Blood is on your shoulder  
Killer today then a killer tomorrow  
No turning back  
Never  
No turning back  
Never  
No one can judge me now  
No turning back  
Fuck you  
Me never look back

We've come such a long way  
Let us in [x8]

Murderer  
Murderer

I'm so tired of fucking with you now baby  
No turning back  
Stop fucking around  
I'm about to let you know  
On my way back home  
We've come such a long way  
Let us in  
We've had such a long day  
Let us in  
No one can judge me now  
No turning back  
Fuck you  
Me never look back  
No  
Fuck you
