

# Ole Time Sake

(Hed) P.E.

Looks like it's all over now  
My friend looks like it's all over now  
Looks like it's all over now  
My friend looks like it's all over now

Step rite up what we have here  
Is not for the weak at heart  
What we thought was evolution  
Was a return to the start  
Not so bad to be a member  
Of a long forgotten tribe  
So young at heart so unforgiven  
For the spandex and the art so young at heart

So take my breath away  
No long goodbyes, no not today  
Just one more time  
For ole times sake  
Take my last breath away  
Yes lay me down, but not today  
Just one more time  
For ole times sake

Come right in and have a seat  
I've been waiting for that smile  
What we thought would last forever  
Was only a short while  
Nevermind, enjoy the circus  
It's the sites we came to see  
Never fails... never enuf time  
To see all the things we'd really like to see

So take my breath away  
No long goodbyes, no not today  
Just one more time  
For ole times sake  
Take my last breath away  
Yes lay me down, but not today  
Just one more time  
For ole times sake

So take my breath away  
No long goodbyes, no not today  
Just one more time  
For ole times sake  
Take my last breath away  
Yes lay me down, but not today  
Just one more time  
For ole times sake

Looks like it's all over now  
My friend looks like it's all over now  
Looks like it's all over now  
My friend looks like it's all over now
