

# Playingwithfire

(Hed) P.E.

Call all your demons in  
Here we go again  
We on the road again  
And headed for destruction  
Here we go again  
Now Pandora's out again  
Out on the town again  
Taking selfies with all her friends

Whoa, acting like the night gon' never end  
Whoa, you let her out, you let her in  
Whoa, she's everywhere, but it's so hard to find her  
Watch your step, watch what you saying  
'Cause you're playing with fire  
Whoa, better watch your step, watch what you're saying  
'Cause you're playing with fire  
Whoa, better watch your step, watch what you're saying  
'Cause you're playing with fire  
Whoa, playing with fire

Call all your demons in  
This is how war begins  
I had her in chains, locked up in a safe  
She always escapes again  
She running the streets again  
Dancing with her evil friends  
Immortal, the night never ends  
They hate us to lose and love us to win

Yeah haters will lose and lovers will win  
She got the magic  
Come with the heat, never afraid  
Follow the sound, she in the crowd  
She singing out loud  
Here we go again  
Yeah, she like to hear the sound  
She sing out loud  
Out on the town again  
Takin' selfies with all her friends  
That girl is proud

Whoa, acting like the night gon' never end  
She sing out loud  
Whoa, you let her out, you let her in  
She's got that power  
Whoa, she's everywhere, but it's so hard to find her  
Watch your step, watch what you saying  
'Cause you're playing with fire  
Whoa, better watch your step, watch what you're saying  
'Cause you're playing with fire  
Whoa, better watch your step, watch what you're saying  
'Cause you're playing with fire  
Whoa, playing with fire

Sometimes it feels so right  
Just to get so loud and do so much again  
Yeah, yeah, right here like that

Yeah, yeah, bring it back around, bring it back around  
Yeah, give me your big one  
Keep that, yeah, keep that, keep that, keep that

Call all your demons in  
Here we go again  
We on the road again  
And headed for destruction  
Here we go again  
Now Pandora's out again  
Out on the town again  
Taking selfies with all her friends

Whoa, acting like the night gon' never end  
Whoa, you let her out, you let her in  
Whoa, she's everywhere, but it's so hard to find her  
Watch your step, watch what you saying  
'Cause you're playing with fire  
Whoa, better watch your step, watch what you're saying  
'Cause you're playing with fire  
Whoa, better watch your step, watch what you're saying  
'Cause you're playing with fire  
Whoa
