

## Stand Up

(Hed) P.E.

"Stop living in the future or living in the past and always live in your Now."

When we stand up - They all fall down  
We fight and we get back up again  
We turn this ship around

So turn it up - You'll never turn me down  
Who will dare to dream with me  
I need someone to believe in me

Stand up!

You know it's never too late  
People we push, push buttons  
The games that we play  
So turn the light on - Keep it on  
Show me the way  
The night - It seems so dark  
Before the dawn of the day  
No! We can't stop - Won't stop  
We here to stay  
This is our home sweet home  
We ain't goin away  
No, we ain't fuckin around  
We make it perfectly clear  
In your face - In your mouth - In your bitch  
Son we here!

When we stand up - They all fall down....

Now there ain't no turnin back  
We gotta move - Move forward  
And stay on track  
People we so close - Here we go  
Straight through the sun  
We keep it so hot - Ready or not - Here we come  
No! We can't stop - Won't stop - We on the run  
This is our home sweet home  
This a family zone  
No! We ain't fuckin around  
We make it perfectly clear  
IN your face - In your mouth - In your bitch

Son..We Here!!
