

# This Love

(Hed) P.E.

Are you feelin kinda lonely...Hold on  
And remember you're not the only one  
It won't be long before the sun shines  
In your life  
Illuminatin your world  
There's time to get it right

What went wrong?

But it's never too late to  
Make a change  
Start over, and just walk away  
From all the pain

No matter what you do...Stay true

Remember that this love will always  
Be there for you...

So never forget  
Why you're here and what you  
Came for  
With some regrets...  
We all guilty - We all shameless  
Don't even lie  
Nobody perfect - No one blameless  
Ya feel me  
No matter what ya look like...Or  
Where you came from  
This a family, We all under  
The same sun  
That's real talk...

Remember that this love will always  
Be there for you...

Through the good times and the bad  
Never forget all the good times  
That we had  
The best is yet to come  
If you believe in yourself...  
And no one else

You fight when you gotta fight...  
Murder and kill  
We murder at will  
Here come da warlord  
Through the war torn territory  
What's it all for?

What does it all mean?  
Where does it all end?  
Why can't we be friends?  
No matter what ya look like...Or  
Where you came from  
This a family, We all under the  
Same sun

That's real talk...

Remember that this love will  
Always be there for you...
